CERTIFICATES:

SCOPE OF SERVICE

All Kinds of Ship Building, Ship Repair and Conversion works involving:

- Steel Works
- Pipe Works
- Blasting and Painting
- Mechanical Fittings
- Scaffoldings

TRACK RECORDS

New Building

Throughout the years, we have built different types of marine vessels like tankers cargo ships, container ships, tugs and barges and ore/bulk/oil carriers. We specialize in Oil Rig hull structure building and ensure all steel constructions adhere to our Quality Management System. Pictures below shows the completed Oil Rig built by us and promptly delivered to the owners.

Conversion Works

We had carried out various types of conversion works like the conversion of 5 units of car carriers to bulk carriers, crude oil tanker to floating production storage and offloading tanker, ore/bulk/oil carrier to pipe laying vessel and general cargo to container vessel. We are also experienced in jumbolisation and de-jumbolisation of vessel.

Pictures below shows the Forward Thruster fabricated and install by us upon completion.

Ship Repairing

Ship repair is our group's principle activity generating approx 20,000 metric tones of steel renewal per annum. We are well verse in all kinds of ship repair services and modifications.

Offshore Construction

Our offshore division is well verse in the construction of heavy offshore structures, piping works, surface preparation and coating works. We have vast experience in construction of offshore structures such as modules, thrusters, flare boom and turret casing. Besides these, we also carried out the construction of a 3 & 8 legged jacket.

Pictures below show the completed fabrication and installation of a helideck, crane tub service module and aft cantilever with turret and chain table.
